DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 10/29/2009 has been entered. Currently claims 22-50 and 52-59 are pending and claims 1-21 and 51 are cancelled.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles Fallow on 12/16/2009.

The application has been amended as follows:

In claim 32, line 7 delete "the" preceding the word "magnetic" and insert "a."

In claim 32, line 7 delete "the" preceding the word "surface" and insert "a."

In claim 32, line 11, delete both instances of the word "the."

In claim 34, line 1 insert "of permanent-magnetic material" after the word "body."

In claim 35, line 2 delete the word "the" preceding the phrase "said sheet."

In claim 35, line 3 delete the word "the" preceding the phrase "said magnetic."

In claim 35, line 4 delete the word "permanentmagnetic" and insert the word "permanent-magnetic."

Art Unit: 1794

In claim 42, line 13 delete the word “the” preceding the phrase “said magnetic.”

In claim 44, line 3 delete the word “the” preceding the phrase “said magnetic.”

In claim 45, line 1 delete the word “the” preceding the phrase “said body.”

In claim 53, line 2 insert the word “printed” immediately preceding the word “product.”

In claim 54, line 1 delete the word “a” immediately preceding the word “device” and insert “the.”

In claim 55, line 2 delete the word “the” preceding the phrase “said body.”

Allowable Subject Matter

3. Claims 22-50 and 52-59 are allowed.
4. The following is an examiner’s statement of reasons for allowance:

The broadest claim is claim 22 draw to a device. The closest prior art to applicants’ invention are the Kashiwagi et al. and Graves references; however, neither of the references teach or suggest either alone or in combination forming engravings ***directly*** into the surface of the body of the permanent magnetic material. These engravings are the indicia which must be capable of forming indicia in a wet coating composition applied to a substrate. The Examiner notes that the matching of the indicia in the surface of the body of permanent-magnetic material to the indicia formed in the wet coating composition breathes life and meaning to the preamble of claim 22. A conclusion of obviousness in this case using the above references would be based

Art Unit: 1794

upon improper hindsight rationale and would not have been obviousness to one having ordinary skill using the teachings of the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
